

# MineShield Project — Color Palette Specification

**Document ID:** docs/color-palette.pdf

**Author:** Tegameno Iyambo (UI/UX Lead)

**Project Phase:** Phase 3 Final Production Release

**System Theme:** High-Contrast Industrial Dark Mode

## 1. Core Base Grays (Backgrounds & Structural Elements)

These colors form the foundation of the interface, designed to reduce eye strain in low-visibility underground environments and optimize device battery life.

- **Primary Screen Background**
  - **HEX:** #0A1C2A
  - **RGB:** rgb(10, 28, 42)
  - **Application:** Global application container background, login backdrop, screen canvas.
- **Surface / Container Background**
  - **HEX:** #132637
  - **RGB:** rgb(19, 38, 55)
  - **Application:** Metric carousel cards, list item rows, modals, navigation bars, dropdown panels.
- **Borders & UI Elements**
  - **HEX:** #20384E
  - **RGB:** rgb(32, 56, 78)
  - **Application:** Dividers, inactive text input strokes, grid guidelines.

## 2. Brand Accent Color

The signature safety color used strictly for interactive controls, core brand identity elements, and focused navigational selections.

- **Safety Orange (Primary Accent)**
  - **HEX:** #FA8100
  - **RGB:** rgb(250, 129, 0)

- **Application:** SECURE LOGIN button, active segment tags (Worker/Supervisor/Visitor switchers), main CTA buttons, focus indicator states.

### 3. Safety & Status Color Hierarchy (Semantic Colors)

A color system used to dynamically communicate threat assessment indexes, zone risk levels, and priority alert states.

- **Critical Level / Danger State**

- **HEX:** #D31515 (Solid Fills) | #FF1F1F (Text & Badges)
- **RGB:** rgb(211, 21, 21) | rgb(255, 31, 31)
- **Application:** Active SOS overlays, "Critical Incidents" statistics cards, Danger Zones, "HIGH" alert tags.

- **Warning Level / Caution State**

- **HEX:** #D38015 (Solid Fills) | #FFA500 (Text & Badges)
- **RGB:** rgb(211, 128, 21) | rgb(255, 165, 0)
- **Application:** Gas leaks/environmental anomalies, Warning Zones, "MEDIUM" priority logs.

- **Safe Level / Nominal State**

- **HEX:** #158343 (Solid Fills) | #00C853 (Text & Badges)
- **RGB:** rgb(21, 131, 67) | rgb(0, 200, 83)
- **Application:** Resolved reports, active connection indicators, "Workers Online" counter badges, Safe Zones.

### 4. Typography Contrast Colors

- **Primary Text:** #FFFFFF (White) — Applied to all main headers, primary numbers, and titles for crisp legibility against dark slate backdrops.
- **Secondary Text:** #A0AAB2 (Muted Steel Gray) — Applied to timestamp metrics, subtitle logs, and unit labels (e.g., "+12% vs yesterday", "Zone A1").
